- Convenient controls
  - Multi-Function Button
  - Microphone mute
  - Volume up / down
  - LED indicators
  - Power source select
- USB-C to USB-A adapter included

### TYPE

- Stereo USB speaker bar with monitor clip
- Speakerphone with simultaneous USB and Bluetooth connectivity

### FREQUENCY

- Voice: 200Hz - 6800Hz
- Music: 80Hz - 18kHz
- Microphone: 100kHz - 18kHz

### CONNECT

- Plug-and-play: Easily connect to your computer via USB-A or USB-C
- Works with all Windows, Chromebook, and macOS devices
- Works with smartphones

Ideal for small desks or minimalist setups, the CA-2890PRO is plug-and-play, no installation needed. The speaker conveniently attaches to the bottom of most monitors (2" thick or less) with easily accessible controls.

The Gain Switch/Power Source button can be used to change the power settings from USB-C power to USB-A, which will optimize the EQ based on whichever power source is used. USB-C will output higher power audio, while USB-A will output lower power audio. A USB-C to USB-A adapter is included with the unit, ensuring out-of-the-box compatibility for users regardless of the type of USB ports available on their device.

The CA-2890PRO offers simultaneous connection to PC or Mac via USB and to smartphones via Bluetooth, making it flexible for hands-free calls on your phone, or for meetings on Zoom, Teams, Google Meet, Skype, or any other video conferencing or chat platform.
